Victoria Vynn IT'S ME

VICTORIA VYNN - PERFECTION THAT INSPIRES

The VICTORIA VYNN™ brand is synonymous with quality, style, and professionalism. We focus on modern formulas and a comprehensive product range. Each product is the result of hours of research and testing. Created for professionals and enthusiasts of beautiful nails who value durability, safety, and exceptional results without compromise.

Thanks to the laboratory precision with which our products are created, nail design becomes easy and enjoyable, and its durability never disappoints.

Global trends and top colors are all replicated in our color laboratory to delight you with the most beautiful collections of gel polishes.

We do so much so that you can do so well.

VICTORIA VYNN

Victoria Vynn IT'S ME

PURE VEGAN COLOR

NEXT GEN CREAMY HYBRID

8 ml

An advanced vegan formula developed based on modern technology ensures maximum quality, stability, and safety. Pure mineral pigments, modern biodegradable polymers, and carefully selected components create a product you can trust.

This next-generation formula with a low allergenic potential has been developed for improved work comfort and greater nail design safety.

ADVANTAGES:

- increased safety index:
 - gentle formula
 - biodegradable cellulose-based polymer
 - modern, stable polymers
 - low allergenic potential
 - ingredients which protect the nail plate from drying out
 - safe, certified pigments
 - minerals and ingredients which create a protective silicone barrier
- vegan formula
- creamy consistency
- modern fan-shaped brush
- yellowing-resistant colors
- no irritating fragrance

PRODUCT FEATURES:

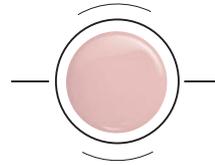

Consistency: medium-thick
Formula: creamy
Application: hybrid manicure, nail art
Dispersion layer: yes
Viscosity index: low

CURING:

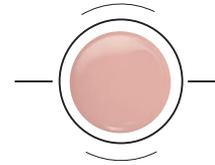

UV/LED 36 W, curing time: 60 s

REMOVAL:

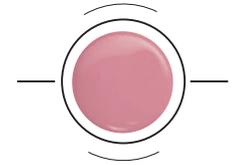

Cosmetic alcohol, acetone, nail file, nail drill

GEL POLISH

HYBRID TOP

EASY REMOVAL

Catalogue no: 332846 - 8 ml

A hybrid top coat made for finishing the EASY REMOVAL design, naturally glosses and protects color manicures.

ADVANTAGES:

- Maintains the flexibility and elasticity of the nail plate
- Fixes and protects hybrid designs
- Gives manicures a natural shine
- Removal without filing

PRODUCT FEATURES:

- Consistency: thin, self-levelling
- Color: clear
- Application: hybrid manicure
- Blue glow: no
- Dispersion layer: yes
- Finish: glossy
- Viscosity Index: low

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 - 180 s

REMOVAL:

- Acetone, nail file, nail drill

GEL POLISH BASES

Victoria Vynn base coats are the foundation of a perfect manicure. They guarantee excellent adhesion, strengthen and protect the natural nail plate, and even out its surface.

Thanks to their varied viscosity and flexibility, they are perfect for every nail type. They allow you not only to level the surface, but also to build up the nail, ensuring durability and a beautiful manicure shape.

RUBBER MEGA BASE

RUBBER BASE COAT FOR OVERLAY

8 ml, 15 ml

The best-selling, multifunctional RUBBER MEGA BASE is designed for apex construction and strengthening the natural nail plate, ensuring a durable and flexible manicure.

ADVANTAGES:

- Flexible manicure thanks to the Rubber MEGA BASE formula
- Works in harmony with the natural nail plate for lift-free manicure
- Full product control with no risk of cuticle flooding during application
- Overlay and reinforcement for natural nails
- Perfect for natural manicures, French, and baby boomer designs
- RUBBER MEGA BASE Clear recommended for application as a base coat (rub-in method) under builder systems

VITAMIN BOOST BASE

VITAMIN HYBRID BASE CONTAINS FIBREGLASS FIBRES, CALCIUM, VIT. B5 AND E

8 ml, 12 ml, 15 ml

Vitamin hybrid base that strengthens natural nails. It contains exceptionally durable fibreglass fibres that seal microcracks and even out the surface of the nail plate. The design becomes flexible, strong and resistant to breakage and cracks.

The base enriched with calcium and vitamins E and B5 has a positive effect on the condition of the nails. It has strong binding properties and increases the adhesion of the product to the natural nail plate.

ADVANTAGES:

- Hybrid base coat with fibreglass, calcium and vitamins E and B5
- Strengthens all types of natural nail plates
- Prevents thin and splitting nails from breaking
- Flexible base coat after curing
- Eliminates the risk of lifting
- Seals the nail structure
- Self-levelling properties
- Fills in unevenness, microcracks and nail defects
- Excellent adhesion of the base to the natural nail plate
- Extends the durability of any design
- The short brush allows for precise application of the base
- VITAMIN BOOST BASE Clearrell recommended for application as a base coat (rub-in method) under builder systems

PRODUCT FEATURES:

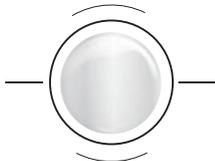

- Consistency: medium-thick, self-leveling
- Nail plate type: in good condition, damaged, splitting, thin
- Application: hybrid manicure
- Overlay: yes
- Dispersion layer: yes
- Acid-free: yes
- Viscosity Index: high

HELLO BASE

HYBRID BASE COAT FOR OVERLAY

8 ml

HELLO BASE is a building base with a medium-thick consistency, designed for strengthening the natural nail.

The self-leveling formula allows for overlay and smoothing out imperfections. Achieve a stunning manicure using only the base and a top coat.

ADVANTAGES:

- Ensures durability and adhesion of the design
- Flexible, resistant to mechanical damage
- Fills in nail plate irregularities
- Does not run or flood the cuticles
- Spectacular manicure effect
- Quick manicure using only a base and top coat

PRODUCT FEATURES:

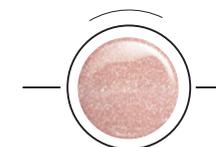

- Consistency: medium-thick, self-leveling
- Nail type: in good condition
- Application: hybrid manicure
- Overlay: yes
- Dispersion layer: yes
- Acid-free: yes
- Viscosity index: high

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 s

JUST BASE

A HYBRID BASE WITH PIECES OF FOIL

8 ml

A hybrid base with pieces of foil.

It can be used to strengthen and gently build up the natural nail plate.

It provides a semi-transparent effect, creating a very delicate, shiny manicure.

ADVANTAGES:

- Increases adhesion and durability
- Flexible, resistant to mechanical damage
- Fills in all unevenness of the nail plate
- Self-leveling properties
- Doesn't run and flood the cuticles
- Natural manicure with the use of just a base and top coat

PRODUCT FEATURES:

- Consistency: medium-thick, self-leveling
- Nail plate type: in good condition
- Application: gel polish manicure
- Overlay: yes
- Dispersion layer: yes
- Acid-free: yes
- Viscosity index: medium

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 s

REMOVAL:

- Acetone, nail file, nail drill

GEL POLISH TOPS

Victoria Vynn top coats guarantee durability and scratch resistance for your manicure.

They enhance color depth and provide a long-lasting shine, an elegant matte finish, or a shimmer effect.

The "no wipe" formula speeds up the application process by eliminating the need to cleanse the sticky (dispersion) layer.

MASTER GEL

POLYGEL

60 g

Master Gel is an innovative product combining the best features of acrylic and gel in one malleable mass.

Its stable consistency ensures complete control during application.

It does not harden during modeling, allowing for precise shaping using nail forms, tips, and dual forms.

It guarantees a durable and flexible manicure.

Ideal for nail reconstruction and correction.

ADVANTAGES:

- Combines the best features of acrylic and gel in one product
- Full control over the mass thanks to its thick consistency that does not run onto the cuticles
- Unlimited shaping time until curing in the lamp
- The exceptional stability of the mass allows for the creation of extremely long nails
- Recommended for working with dual forms
- Possibility of shaping several nails simultaneously before curing the design
- Comfortable work without the irritating fragrance typical of acrylic
- Ideal for reconstructing nail plates and correcting downward-growing nails
- Allows for the creation of precise structural and 3D decorations
- Minimizes dust during filing, dust settles quickly and does not become airborne
- Low-heat product, so it does not burn in the lamp

PRODUCT FEATURES:

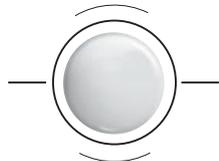

- System type: 3-phase (base, gel, top)
- Consistency: thick, does not level
- Nail type: any
- Application: building polygel nails
- Extensions: yes
- Overlay: yes
- Dispersion layer: yes
- Acid free: yes

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 - 180 s

MASTER GEL LIQUID

Catalogue no: 330554 - 200 ml

Polygel modeling liquid with a pleasant lime scent. Facilitates product application, adds flexibility, and allows for easy shaping.

ADVANTAGES:

- Facilitates shaping the Master Gel
- Prevents the product from sticking to the brush
- Does not activate the polymerization process
- Has a pleasant, non-irritating scent
- Monomer-free

PRODUCT FEATURES:

- Consistency: liquid
- Color: clear
- Scent: lime
- Application: polygel manicures

MASTER GEL BRUSH & SPATULA

Catalogue no: 330600

Brush with a spatula for polygel application.

INSTA GEL

SELF-LEVELING FLEXIBLE BUILDER GEL

40 ml

Self-leveling, flexible builder gel designed to speed up daily work and save the nail technician's time.

Ideal for overlays, infills, and short salon extensions.

Its lightweight, relatively thin consistency ensures comfortable application, allowing for quick and perfect product distribution without flooding the cuticles.

ADVANTAGES:

- Created for fast salon manicures and refills
- Perfect for strengthening the natural nail plate
- Excellent self-leveling and high product viscosity, preventing cuticle flooding
- Works in harmony with the natural nail plate
- Flexible manicure without lifting, resistant to breaks and cracks
- Suitable for salon extensions using nail forms and tips
- Suitable for the "one drop" no-filing technique
- Minimized burning sensation in the lamp
- Very easy to file

EASY FIBER GEL

BUILDER GEL WITH GLASS MICROFIBERS

15 ml, 50 ml

A self-leveling builder gel with glass microfibers, creating a cross-linked structure that enhances the durability of your nail design.

It allows for easy extension and shaping of nails, as well as working with nail forms, tips, and dual forms.

It allows for the creation of extremely durable, flexible, yet thin and natural designs.

ADVANTAGES:

- Strengthens the natural nail plate thanks to its high content of glass microfibers
- Flexible, yet durable manicure that works in sync with the natural nail
- Perfect adhesion to the nail plate, creating a manicure without air pockets
- Quick and easy application thanks to its self-leveling formula
- For quick infills and corrections of downward-growing nails
- Perfect for the one-drop method, no filing required
- Ideal for nail techs at any level
- Minimized burning sensation in the lamp, increasing client comfort

SELF-LEVELING BUILDER GEL

15 ml, 50 ml

This self-leveling nail builder gel provides a durable and damage-resistant design.

Designed for extensions using nail forms, tips, and dual forms, as well as for strengthening the natural nail plate.

The gel's properties ensure exceptional comfort, quick and easy application, and excellent buildability for any shape.

ADVANTAGES:

- For extending nails to any length
- Long-lasting manicure without lifting
- Precise and easy building and shaping of nails
- Effective correction and extension of downward-growing nails
- Quick and easy to file
- Stable and durable maintenance of the tunnel shape

PRODUCT FEATURES:

BUILD GEL BASE

Catalogue no: 330141 - 15 ml

A gel base designed for the BUILD GEL system. It increases the durability and adhesion of gel manicures.

ADVANTAGES:

- Increases adhesion of builder gel
- Evens out the nail plate
- Easy to apply

PRODUCT FEATURES:

- Consistency: thin
- Color: clear
- Nail type: in good condition
- Application: gel nail construction
- Overlay: no
- Dispersion layer: yes
- Acid-free: no
- Viscosity Index: low

CURING:

- UV/LED 36 W, curing time: 60 s.
- UV 36 W, curing time: 120 s.

REMOVAL:

- Nail file, nail drill

PRIMER ACID

Catalogue no: 330143 - 15 ml

Acid preparation with an etching effect. Dedicated to demanding nail plates. Very strongly fuses the nail plate with hybrid, gel, and polygel base coats.

● **ADVANTAGES:**

- Increases base coat adhesion to the natural nail plate
- Prevents air pockets in the nail design
- Etches and dehydrates the nail plate
- Removes moisture
- Evaporates quickly and leaves the nail dry

● **PRODUCT FEATURES:**

Consistency: liquid

Application: nail plate preparation

Applicator: brush

MOUSSE SCULPTURE GEL

NAIL ARCHITECTURE GEL WITH THIXOTROPY

50 ml

This thixotropic gel has a mousse-like consistency, perfect for extending and building nails, as well as strengthening natural nails.

The gel's "liquid memory" formula significantly speeds up salon work, and a properly and carefully executed manicure minimizes filing.

After curing in the lamp, the manicure becomes hard and resistant to damage, yet remains easy to work with.

ADVANTAGES:

- Thixotropy ensures full control over the mass during work
- The stable mousse consistency, does not run or flood cuticles
- Easy to build avant-garde shapes and very long extensions
- Exceptional hardness and resistance to mechanical damage after curing
- Allows for sculpting several nails and simultaneously curing them
- Quick and easy application
- Excellent product stability, perfectly retains the desired shape and tunnel

PRODUCT FEATURES:

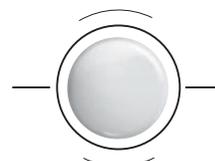

System Type: 3-phase (base, gel, top)
Consistency: thick, mousse-like consistency
Nail Type: any
Application: gel nail construction
Extensions: yes
Overlay: yes
Dispersion Layer: yes
Acid-Free: yes

WHAT IS THIXOTROPY?

The thick consistency of the mousse has the unusual property of changing viscosity under the influence of applied energy. When applied to the nail, its structure thins slightly. This process is called thixotropy, or "liquid memory." This allows for easy and even application, shaping, and gentle leveling.

BOTTLE GEL ONE PHASE

ONE-PHASE GEL IN A BOTTLE

15 ml

A gel in a bottle for building, extending, and strengthening nails without the need for a base coat.

It combines hardness and high damage resistance with flexibility, making it ideal for natural nails.

The self-leveling formula allows for quick infills and one-drop design without filing.

ADVANTAGES:

- A convenient bottle with a brush makes work easier and faster
- The self-leveling formula is ideal for instant refills
- Excellent elasticity means the gel adheres to the natural nail plate and doesn't crack
- Manicure without lifting
- Perfect for the one-drop method, no filing required

PRODUCT FEATURES:

- System type: 1-phase, no base coat required
- Consistency: medium thick, self-leveling
- Nail type: any
- Application: gel nail construction
- Extensions: yes
- Overlay: yes
- Dispersion layer: yes
- Acid-free: yes
- Viscosity Index: high

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 - 180 s

REMOVAL:

- Nail file, nail drill

LIQUID POLY GEL

15 ml

Liquid polygel combines the lightness of gel with the durability of acrylic. It provides high resistance to breakage and cracking. The self-leveling formula allows for easy overlays as well as nail extensions using nail forms, tips, and dual forms.

Liquid polygel in a bottle ensures fast, effortless, and pleasant work.

ADVANTAGES:

- Combines the durability of acrylic with the lightness and flexibility of gel
- Liquid formula facilitating quick application directly from the bottle
- Full control over the product with no risk of flooding the cuticles during application
- Excellent adhesion to the natural nail plate, guaranteeing long-lasting results
- High resistance to mechanical damage despite a thin layer of product
- Quick and easy to file
- Perfect for the "one drop" no-filing technique
- Minimized burning sensation in the lamp, increasing client comfort

PRODUCT FEATURES:

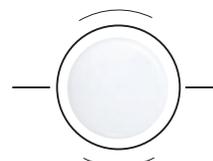

System type: 3-phase (base, liquid polygel, top)
Consistency: medium-thick, self-leveling
Nail plate type: any
Application: building polygel nails
Extensions: yes, up to 5 mm
Overlay: yes
Dispersion layer: yes
Acid-free: yes
Viscosity index: high

SOFT GEL TIPS SYSTEM

THE FASTEST AND MOST PROFESSIONAL NAIL EXTENSIONS

A fast method for salon nail extensions using pre-shaped, satin acrylic tips.

It combines incredible ease of application with a natural finish and maximum time savings.

It ensures a durable, crack-resistant nail design and impeccable aesthetics with minimal effort.

ADVANTAGES:

- Easy and fast nail extension method
- Provides a feeling of a lightweight, natural, and flexible nail design
- Durable and damage-resistant manicure
- Compatibility of products in the SOFT GEL TIPS system

PRODUCT FEATURES:

- Pre-shaped tips
- 5 different tip shapes
- 500 pcs per package
- 10 sizes of each shape
- Full fit to the nail plate
- Flexible acrylic material

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 - 180 s

REMOVAL:

- Nail file, nail drill

SOFT GEL TIPS PREP TIPS for degreasing

Catalogue no: 331724 - 15 ml

Preparation for dehydrating natural nails and degreasing the underside of the tips. Used as the first step in the SOFT GEL TIPS nail design system.

PRODUCT FEATURES:

- A strongly degreasing product
- Removes moisture and dirt from the nail plate
- Evens out the nail plate's pH level
- Mats and degreases the tips
- A clear liquid
- Doesn't leave a sticky dispersion layer

SOFT GEL TIPS GEL TIPS strong foundation

Catalogue no: 331726 - 15 ml

Specially formulated, light-cured gel for attaching nail tips. Self-levelling and flexible formula perfectly spreads, creates a perfect bond between the natural nail plate and tips.

PRODUCT FEATURES:

- Consistency: medium-thick, self-leveling
- Nail type: any
- Application: Soft gel tips, hybrid, gel and polygel manicures
- Extension: yes
- Overlay: yes
- Dispersion layer: yes
- Acid-free: yes
- Viscosity Index: high

CURING AFTER APPLICATION OF THE TIPS:

- 3W LED, pre-curing of the tips for approx 10 seconds to secure the stability of the manicure
- 48W UV/LED for complete curing – 60 seconds

SOFT GEL TIPS PRIMER TIPS acid free

Catalogue no: 331725 - 15 ml

Acid free primer, essential for ensuring adhesion of SOFT GEL TIPS designs. By applying a thin layer on a natural nail plate and to the underside of tips you are guaranteed a long-lasting design. It is safe for sensitive natural nail plates.

SOFT GEL TIPS TOP TIPS no wipe

Catalogue no: 331727 - 15 ml

Hybrid top with a shine, without a dispersion layer. A thin layer provides fixation and protection of the manicure.

PRODUCT FEATURES:

- Ensures adhesion
- Leaves optimal viscosity after 30 seconds
- Without curing in a lamp

PRODUCT FEATURES:

- Consistency: medium-thick, self-leveling
- Color: clear
- Application: Soft gel tips, hybrid design, gel, polygel
- Blue glow: yes
- Dispersion layer: no
- Finish: glossy
- Viscosity Index: high

CURING:

- UV/LED 36 W, curing time: 60 s
- UV 36 W, curing time: 120 s

PERFECT SHAPE DUAL FORMS

DUAL FORMS

Dual forms are an alternative to traditional extensions, overlays, and nail corrections using polygel or gel.

They allow for precise achievement of the desired shape, significantly shortening salon working time. They guarantee a perfect nail design structure and smooth surface with minimal effort.

Silicone templates for French manicure made of flexible and soft material, ensuring a perfectly symmetrical smile line. Available in two shapes and 12 sizes, which allows for a perfect fit to every nail plate and facilitates precise nail design.

ADVANTAGES:

- Salon shapes
- Ideal structure of extended nails
- Acceleration of work pace
- 12 fitted sizes for different nail plate widths
- Disinfection possible
- Flexibility and durability of forms
- Facilitation of work thanks to auxiliary lines on the forms
- Reusable

PRODUCT FEATURES:

- 3 shapes of forms
- 120 pcs per package
- 12 sizes of transparent forms
- 2 types of silicone templates for French manicure

NAIL FORMS

NAIL FORMS FOR EXTENSIONS

NAIL FORMS **QUICK TRICK**

Catalogue no: 332437 - 100 pcs.
332438 - 400 pcs.

Transparent nail extension forms are characterized by a rigid construction, which enables an ideal fit to the nail plate. Strong adhesive allows for stable fixation of the nail form.

The use of precise auxiliary lines and a deeply cut-out "egg" shape facilitates the modeling of symmetrical shapes, from almonds to squares.

Perfect for salon extensions. Marked lines facilitate precise extension: symmetry, side edges, square, almond, and auxiliary lines. Internal cuts help to perfectly position the form and shape the ideal tunnel. Short wings make curing in the lamp easier.

NAIL FORMS **BASIC**

Catalogue no: 330346 - 100 pcs.
330350 - 400 pcs.

Paper forms for salon nail extensions.

The excellent shape of the forms and marked lines will significantly facilitate matching them to every nail plate. Perfect for working with gel and polygel.

SALON NAIL FORMS **BLACK**

Catalogue no: 330785 - 100 pcs.
330786 - 400 pcs.

Nail extension forms with an excellent salon shape, made of metallized, laminated paper.

Very durable and optimally resilient. Strong adhesive guarantees the stability of the form during nail modeling. Perfect for working with gel and polygel.

NAIL ART

Nail art is definitely more than just a decoration.

Nail art can capture a mood, emphasize an outfit, and become a small form of art.

Products intended for professional nail decoration techniques are characterized by high durability and full compatibility with various nail design systems.

BOOMY OMBRE BABYBOOMER SET

Catalogue no: 332612

Intuitive set for achieving the perfect ombre effect.

BOOMY OMBRE SPONGES & GRIPPER

Catalogue no: 332607

ADVANTAGES:

- The set allows even a beginner nail tech to perform the perfect ombre to perform the perfect ombre
- Excellent, easy shading with just two thin layers
- High pigmentation
- The jar makes it easy to pick up the product in various ways
- The mesh membrane allows for picking up the perfect amount of product
- Gel for performing decorations: ombre, one stroke, stamping, and thin lines
- Sponges leave a uniform surface of gel on the nails and enable easy shading
- Sponge size ready to use without trimming.
- Ergonomic gripper shape
- The gripper holds the sponge quickly and precisely, enabling clean and comfortable work

PRODUCT FEATURES:

Set contains:

- white decoration gel,
- gripper,
- 96 sponges in a box

LIQUIDS AND PREPARATIONS

The foundation of every perfect nail design is a properly prepared nail plate.

Professional liquids and preparations ensure maximum adhesion and an impeccable appearance for the nail design.

Essential for performing a durable manicure and pedicure.

CUTICLE JELLY REMOVER

Catalogue no: 331361 - 30 ml

Gel for softening and removing cuticles.

ADVANTAGES:

- Softening and safe removal of cuticles
- Gel, odorless, and vegan formula with high pH
- Contains sodium hydroxide, which softens cuticles
- Deep care for delicate cuticles and the nail plate
- Convenient applicator

PRODUCT FEATURES:

- Consistency: gel
- Application: nail plate preparation
- Applicator: dropper

CUTICLE AWAY

Catalogue no: 330158 - 10 ml

Preparation for softening and removing cuticles.

ADVANTAGES:

- Softening and safe removal of cuticles
- Prevents cuticles from drying and cracking
- Balances moisture levels
- Contains glycerin and sweet almond oil in the composition
- Gentle on cuticles

PRODUCT FEATURES:

- Consistency: gel-water
- Application: nail plate preparation
- Applicator: bottle with brush

NAIL PREP

Catalogue no: 330620 - 15 ml

Liquid for dehydrating natural nails.

ADVANTAGES:

- Strongly dehydrating preparation
- Removes moisture and impurities from the natural nail plate
- Prepares natural nails for the nail design
- Balances nail plate pH
- Application only on natural nail plate

PRODUCT FEATURES:

- Consistency: liquid
- Application: nail plate preparation
- Applicator: brush

GEL POLISH TAPE BOND soak off

Catalogue no: 330110 - 8 ml, 332008- 15 ml

Acid-free primer increasing the adhesion of products to the natural nail plate.

Acts as a primer for the entire nail design, perfectly connecting natural nails with hybrid, gel, polygel base coats. Apply pointwise directly to the nail plate.

ADVANTAGES:

- Increases base coat adhesion to the natural nail plate
- Gentle and safe for nails
- Does not contain MAA (Methacrylic Acid)
- Leaves a sticky layer after drying
- No curing in the lamp required

PRODUCT FEATURES:

- Consistency: liquid
- Application: nail plate preparation
- Applicator: brush

PURE DUO PREP DEHYDRATOR & CLEANSER

Catalogue no:
330317 - 60 ml, 330229 - 1000 ml

Liquid for degreasing the nail plate
and cleansing the nail design.

ADVANTAGES:

- Liquid for various applications
- Cleans and degreases the nail plate
- Removes the dispersion layer
- Liquid does not contain acetone, it is a mixture of alcohols

PRODUCT FEATURES:

- Consistency: liquid
- Application: nail plate preparation, cleansing the nail design

DEHYDRATOR EXTRA ADHESION

Catalogue no:
330712 - 60 ml, 330709 - 150 ml, 330669 - 1000 ml

Liquid for dehydrating and cleansing
the natural nail plate.

ADVANTAGES:

- Degreases and cleans the natural nail
- Increases adhesion of base coats
to the natural nail plate
- Leaves a very pleasant perfume scent
- Available in three sizes

PRODUCT FEATURES:

- Consistency: liquid
- Application: nail plate preparation

CLEANER FINISH MANICURE

Catalogue no:
330713 - 60 ml, 330710 - 150 ml, 330670 - 1000 ml

Liquid for cleansing the sticky layer
(dispersion).

ADVANTAGES:

- Liquid for cleansing the sticky layer (dispersion)
- Gives a glossy effect to the nail design
- Does not dry the cuticles around the nails
- Leaves a very pleasant perfume scent
- Available in three sizes

PRODUCT FEATURES:

- Consistency: liquid
- Application: nail design finishing

REMOVER SOAK OFF MANICURE

Catalogue no:
330714 - 60 ml, 330711 - 150 ml, 330671 - 1000 ml

Liquid for removing hybrid polishes.

ADVANTAGES:

- Effectively removes hybrid polishes in just 10 minutes, after buffing the top coat
- Contains macadamia oil and vitamin E
- Does not dry nails and skin
- Leaves a very pleasant perfume scent

PRODUCT FEATURES:

- Consistency: liquid
- Application: removing hybrid manicures

ACETONE EASY REMOVE

Catalogue no: 330484 - 1000 ml

Cosmetic acetone for removing manicures.

ADVANTAGES:

- Effectively removes hybrid polishes in just a few minutes, after buffing the top coat

PRODUCT FEATURES:

- Consistency: liquid
- Application: removing hybrid manicures

CARE PRODUCTS

It is worth finishing a professional manicure with a relaxing care ritual.

Regular use of nourishing creams and regenerating cuticle oils provides the skin with velvety smoothness and essential hydration.

This is a perfect complement to the treatment, improving the condition of the skin and increasing client comfort.

SENSO

CARE CREAMS AND OILS

SENSO moisturizing and nourishing creams are a luxurious hand and body care line with a perfume-like scent.

They are perfect for finishing a manicure treatment and for daily skin regeneration.

The ritual is completed by dedicated cuticle oils, which, thanks to identical scent notes, create a harmonious and aromatic duo with the creams.

ADVANTAGES:

- Intensive hydration and regeneration strengthen the skin's natural protective barrier and restore its healthy appearance
- Fast absorption leaves the skin feeling velvety soft, without an unpleasant, greasy residue
- A wealth of active ingredients such as shea butter, aloe vera juice, soybean oil, and allantoin ensures comprehensive care
- Vegan formula

5 OILS COMPLEX

CUTICLE AND NAIL OIL

Catalogue no: 330361 - 9 ml, 330157 - 30 ml

Cuticle and nail care oil. A highly concentrated composition of 5 natural oils, enriched with vitamins, antioxidants, and fatty acids.

This intensive treatment nourishes, moisturizes, and regenerates the cuticles.

ADVANTAGES:

- 96% NATURAL OILS: sweet almond, avocado, nut, macadamia, jojoba, and argan oils
- Rich in vitamins, antioxidants, and fatty acids
- Softens, nourishes, and regenerates cuticles
- Absorbs very well into the skin without leaving a greasy residue

X-TREME HARDENER

CLASSIC NAIL CONDITIONER

Catalogue no: 330362 - 9 ml

Ultra-strength conditioner for natural nails. Daily use restores proper hydration, strength, and natural nail flexibility.

Treatment effects visible after 3 weeks of use.

ADVANTAGES:

- Strengthens and hardens weak, brittle, and splitting nails
- Contains a blend of polymers that bond repeatedly with keratin (the building block of the nail plate) and are responsible for its hardening
- Conditioner formula rich in hardening ingredients: silicon compounds and silk proteins
- Restores the moisture balance of the nail plate.
- Increases the nail plate's resistance to mechanical damage

REMOVAL:

- Nail polish remover

TOOLS AND DEVICES

Nail plate preparation is an essential step that must not be skipped!

If you want to achieve a beautiful and long-lasting manicure, you must carefully prep the nails and the surrounding cuticles.

High-quality manicure and pedicure tools, well-suited to your needs, will allow you to quickly achieve the desired result.

TOOLS

Precise tools provide essential support for professional nail plate preparation and accurate cuticle work.

High quality ensures comfortable work and allows for achieving perfect results in every manicure.

CUTICLE NIPPERS

Catalogue no: 332012 - 3 mm
332013 - 5 mm
332014 - 7 mm

The cuticle nippers are perfectly balanced and handy. They fit comfortably in your hand, so working with them is very smooth and comfortable. The handles working on a double spring and durable blades guarantee high cutting precision.

CUTICLE PUSHER

Catalogue no: 332015 - 3 mm

The cuticle pusher will safely and non-invasively remove epithelial remnants from the nail plate. Multi-tasking tips will thoroughly prepare the nail plate for further treatments, speed up the hybrid removal process and will be helpful in some decorating techniques.

CUTICLE SCISSORS

Catalogue no: 332010 - 19 mm
332011 - 22 mm

Scissors designed for cutting cuticles. Thin, conical blades with a curved profile designed to ensure gentle cuticle cutting and minimize the risk of injury during manicure and pedicure. Ergonomic shape facilitates use.

SPRING SCISSORS

Catalogue no: 332009

Scissors for cutting stickers and nail forms.

NAIL FILES

Professional nail files and buffers are characterized by high durability, enabling efficient preparation of the natural nail plate and precise filing of gel and polygel designs.

BRUSHES

Gel and nail art brushes offer the highest quality bristles, allowing for precise product application and the creation of even the most demanding designs.

Thanks to their ergonomic construction, they provide full control and working comfort, ensuring perfect results in every manicure.

GEL BRUSHES

4 FLAT/ GEL Flat gel brush 4

Catalogue no: 330692

Bristle length: 9 mm

Flat brush for gel application with dense, evenly cut bristles. The width and shape of the FLAT type perfectly fits the nail plate.

8 OVAL/GEL Oval gel brush 8

Catalogue no: 330693

Bristle length: 13,5 mm

A flat brush with slightly rounded bristles in the shape of a cat's tongue.

GEL BRUSH 086 1

Catalogue no: 330308

Bristle length: 7 mm

A flat brush with elastic bristles shaped in the shape of a small cat's tongue. Perfectly applies hybrid and gel bases as well as builder gels.

GEL BRUSH 090 4

Catalogue no: 330307

Bristle length: 10 mm

Brush for gel application. Elastic bristles arranged in a flat stack and trimmed straight.

GEL BRUSH 090 1

Catalogue no: 330309

Bristle length: 6 mm

Brush with flat, evenly trimmed and elastic bristles. Recommended for ONE STROKE.

GEL BRUSH 092 4

Catalogue no: 330310

Bristle length: 14 mm

A flat brush for applying gel with elastic bristles shaped like a cat's tongue.

NAIL ART BRUSHES

001 ONE STROKE NAIL ART Brush

Catalogue no: 331039

Bristle length: 6 mm

Brush for decorations using the ONE STROKE technique. It allows you to blend colors perfectly and create perfectly shaded elements of floral decorations.

Decoration Brush 001 NAIL ART

Catalogue no: 330688

Bristle length: 3 mm.

Precision brush for micropainting. It is irreplaceable when making detailed designs.

NAIL ART BRUSH 049 2

Catalogue no: 330311

Bristle length: 11 mm

Precision brush for nail art and combined manicure. Perfect for extremely thin lines, small patterns and geometric designs.

001 ZHOSTOVO NAIL ART Brush

Catalogue no: 331037

Bristle length: 5 mm

Brush for decorations using the ZHOSTOVO and BOHEME techniques. It helps in creating chiaroscuro, exposing details and fillings in micropainting.

Decoration Brush NAIL ART 002

Catalogue no: 330689

Bristle length: 3 mm.

Brush for very precise designs, sketches, contouring, micropainting.

Ombre DESIGN BRUSH 836 4

Catalogue no: 330312

Two bristle lengths: 6 and 12 mm

OMBRE and shading brush. Two lengths of bristles, arranged in a flat stack, evenly distribute the product on the nail plate.

002 ZHOSTOVO NAIL ART Brush

Catalogue no: 331038

Bristle length: 5 mm

Brush for decorations using the ZHOSTOVO and HYPNO FLOWER techniques. The bristle shape is perfect for creating petals and leaves. It helps in obtaining depth of design, micropainting fillings and all kinds of shading.

Decoration Brush NAIL ART 003

Catalogue no: 330690

Bristle length: 7 mm

Brush for complicated ornaments, laces and curved lines.

Double Sided NAIL ART Applicator for Decorations

Catalogue no: 330695

The wax, cone shaped tip makes it easy to apply small, convex decorations on the nails. A probe with a 1 mm diameter tip will make precise dots and place very small decorative elements

OMBRE Brush NAIL ART

Catalogue no: 330694

Bristle lengths: 5 and 10 mm

Brush for making OMBRE designs and shading. It has two different bristle lengths which perfectly mix the colors.

Decoration Brush NAIL ART 005

Catalogue no: 330691

Bristle length: 12 mm

Brush for painting thin, long, precise lines, illusions, ornaments and geometric designs.

MAGNET

Catalogue no: 330837 – 2-sided, 330838 – 4-sided

Double sided and four sided precision magnets that make designs with the use of CAT EYE polishes.

DRILL BITS

Thanks to the universal 2.35 mm shank diameter, the drill bits are fully compatible with most professional beauty and podiatry nail drills.

Clear color coding allows for quick selection of the correct grit, and the ability to autoclave them guarantees the highest standard of hygiene during every treatment.

DRILL BIT Diamond Small Flame / 1,6 mm

Catalogue no: 331785

It is perfect for combination manicures. Precisely removes cuticles and cleanses the periungual folds of the hands and feet. The flame shape allows you to carefully push back and gently lift cuticles. It allows you to remove cuticles in hard-to-reach areas.

PRODUCT PROPERTIES:

Shape: small flame
Use: for cuticles and nail shafts
Head diameter: 1.6 mm
Head length: 3.5 mm
Grit: medium
Recommended speed: 20 000 - 30 000 RPM*
For whom? Right- and left-handed users

DRILL BITS FOR CUTICLES

DRILL BIT Diamond Flame / 1,8 mm

Catalogue no: 331781

This drill bit is perfect for combination manicures. Precisely removes cuticles and cleans the periungual folds. The shape of the flame allows the cuticles to be carefully and gently lifted.

PRODUCT PROPERTIES:

Shape: flame
Use: for cuticles and nail sidewalls
Head diameter: 1.8 mm
Head length: 5 mm
Grit: medium
Recommended speed: 10 000 - 15 000 RPM*
For whom? Right- and left-handed users

DRILL BIT Diamond Small Ball / 3,3 mm

Catalogue no: 331786

The small ball-shaped diamond drill bit is used to remove, clean and smooth the periungual folds.

PRODUCT PROPERTIES:

Shape: small ball
Use: for cuticles and nail sidewalls
Head diameter: 3.3 mm
Grit: medium
Recommended speed: 20 000 - 30 000 RPM*
For whom? Right- and left-handed users

DRILL BIT Diamond Groove Flame / 2,1 mm

Catalogue no: 331782

It is perfect for combination manicures. Precisely removes cuticles and cleanses the periungual folds. The shape of the elongated flame allows you to carefully push back and gently lift the cuticles. The fluted surface of the drill does not heat up and dissipates heat perfectly.

PRODUCT PROPERTIES:

Shape: fluted flame
Use: for cuticles and nail sidewalls
Head diameter: 2.1 mm
Head length: 8 mm
Grit: medium
Recommended speed: 20 000 - 30 000 RPM*
For whom? Right- and left-handed users

DRILL BIT Diamond Groove Ball / 5 mm

Catalogue no: 331783

The ball-shaped diamond drill bit is used for smoothing periungual folds. The fluted surface does not heat up and dissipates heat perfectly.

PRODUCT PROPERTIES:

Shape: fluted ball
Use: for cuticles and nail shafts
Head diameter: 5 mm
Grit: fine
Recommended speed: 20 000 - 30 000 RPM*
For whom? Right- and left-handed users

DRILL BITS FOR WORKING ON AND REMOVAL OF MASS

DRILL BIT Ceramic Cone / 4 mm

Catalogue no: 331780

The ceramic drill bit in the shape of a rounded, narrow cone is designed for working on nail tips, hybrid, gel and polygel masses. It is recommended for cleaning and precise correction of the underside of the free edge.

PRODUCT PROPERTIES:

Shape: rounded cone
Use: for hybrid, gel and polygel masses
Head diameter: 4 mm
Head length: 14 mm
Level of sharpness: medium
Recommended speed: 15 000 - 20 000 RPM*
For whom? Right- and left-handed users

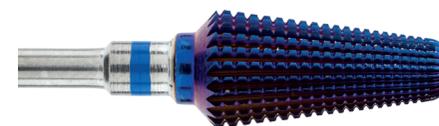

DRILL BIT Ceramic Typhoon / 6 mm

Catalogue no: 331777

The cone-shaped ceramic drill bit accurately and quickly removes hybrid varnish, gel and polygel mass. When working, the ceramic drill bit does not transfer heat to the nail plate.

PRODUCT PROPERTIES:

Shape: cone
Use: for hybrid, gel and polygel masses
Head diameter: 6 mm
Head length: 15 mm
Level of sharpness: medium
Recommended speed: 15 000 - 20 000 RPM*
For whom? Right- and left-handed users

DRILL BIT Carbide Tornado / 7 mm

Catalogue no: 331778

The rounded cone-shaped carbide drill bit is made of sintered carbide, an extremely durable raw material. This sharp drill bit is used when removing any type of compound and trimming nails.

PRODUCT PROPERTIES:

Shape: rounded cone
Use: for gel, polygel and acrylic masses
Head diameter: 7 mm
Head length: 14 mm
Level of sharpness: medium-coarse
Recommended speed: 15 000 - 20 000 RPM*
For whom? Right- and left-handed users

DRILL BIT Carbide Volcano / 7 mm

Catalogue no: 331779

The carbide drill bit in the shape of a rounded cone made of sintered carbide, an extremely durable raw material. Intended for removing hybrid, gel and polygel masses. Perfect for beginners and experienced nail technicians.

PRODUCT PROPERTIES:

Shape: rounded cone
Use: for hybrid, gel and polygel masses
Head diameter: 7 mm
Head Length: 12 mm
Level of sharpness: medium
Recommended speed: 15 000 - 20 000 RPM*
For whom? For right-handed users

DRILL BIT Carbide Cyclone / 6 mm

Catalogue no: 331784

The cone-shaped carbide drill bit is made of sintered carbide, an extremely durable raw material. One of the strongest drill bits, it will easily and quickly remove hard gel, polygel and acrylic masses. The surface of the drill bit has been made using the technique of spiral arrangement of the cutter teeth, so that neither the drill nor the nail plate heats up and the heat generated during work is quickly dissipated.

PRODUCT PROPERTIES:

Shape: cone
Use: for gel, polygel and acrylic masses
Head diameter: 6 mm
Head length: 14 mm
Level of sharpness: medium-coarse / coarse
Recommended speed: 15 000 - 20 000 RPM*
For whom? For right-handed users

DEVICES

CORDLESS NAIL DRILL

CORDLESS NAIL DRILL

Catalogue no: 332136

Professional cordless nail drill for manicure, enabling efficient removal of hybrid, gel, and polygel nail designs.

The device allows for precise cuticle work, which is the foundation of a professional manicure.

PRODUCT FEATURES:

- Device power: 30 W
- Input voltage: DC 5V 2A
- Battery voltage: DC 7.4V
- Maximum rotation speed: 40,000 rpm
- Brushless TWIST-LOCK handpiece
- Rotation direction: forward / reverse
- Bit diameter: Ø 2.35 mm
- Base dimensions: 72 x 148 x 27 mm
- Handpiece dimensions: 124 mm; Ø 21 mm
- Handpiece weight: 102.75 g
- USB power port: OUT power/charging for other devices, e.g., LED lamps
- USB-C port: IN charging/powering the nail drill
- Charging time: 7 hours (from 0 to 100%)
- Operating time: 12-14 hours

CORDLESS MULTILED LAMP

CORDLESS NAIL LAMP 36 W

Catalogue no: 331801

Professional, cordless lamp with MULTILED technology and 36W power. Designed for curing all gel, polygel, and hybrid products.

The lamp features 81 optimally placed LEDs and four curing time options: 10, 30, 60 seconds, and progressive curing – 99 seconds.

PRODUCT FEATURES:

- Device power: 36 W
- Curing time: 10s, 30s, 60s, 99s "low heat" progressive curing
- Number of LEDs: 81 pcs.
- Supply voltage: 100 - 240 V 50 / 60 Hz 12 V
- Output voltage: 12 V / 3 A
- Wavelength: 365 nm (27 LEDs); 405 nm (54 LEDs)
- Battery: 11.1 V - 4,400 mAh (48.84 Wh)
- Dimensions: 210 x 210 x 100 mm

USB LED LAMP

MINI LAMP LED 6 W

Catalogue no: 331969

Professional mini LED lamp for curing hybrid polishes. Super practical, charged via USB cable, has 10 precisely placed LEDs and a 30 sec. timer.

Perfect device for work in a salon, for mobile nail technicians and home use.
